Projects

Cafe Management System
https://github.com/Gayathri-Vasu/Cafe_Management

- Developed a full-stack cafe management application with role-based authentication, menu management, order processing, billing, PDF invoice generation, and revenue tracking. Implemented secure REST APIs using Spring Boot, Spring Security, and with MySQL for data persistence.

Pharmacy Management System — **Present**
https://github.com/Gayathri-Vasu/Medikart

- Developed a web-based pharmacy management application that enables users to order both traditional and modern medicines online. The system includes features for medicine browsing, inventory management, prescription handling, and billing. Built using HTML, CSS and JavaScript to provide a seamless and user-friendly experience for customers and pharmacy administrators.
